Description

- 24 Hour Mechanical Timer - With 15 minute segments
- Simple to Use - Simply press down the segments when you want your device to turn on
- Ideal for Indoor Power Applications - Great for slow cookers, lighting, fish tanks and more
- Manual Override Function - Override the timer to power the connected device

Operation Instruction

- Turn the disc clockwise until the arrow is pointing to the current time.
- Push the slice down according to your desired work time. Each slice corresponds to 15 minutes.
- Push switch down to ⏱ for timer function. Simply push up to ON for constant power and override timer function.
- Plug in timer and connect your device to the timer.

BRITZ®

Model: RCD 08 (ELCB Adaptor)

Description

RCD08 10mA adaptor for added protection against the risk of electric shock. It instantly cuts the power in the event of an earth connection leakage. It is latching, therefore power needs not to be reset at each use and it is ideal for home appliance spike protection .

Active (Non-Latching) Type -

When power is cut to the device. The RCD will trip DO NO need to be RESET RCD Protection - Against the risk of fatal electric shocks

Adaptor - Simply plug in the tool or device you want to use
40ms Trip Speed - To provide fast protection

Operating instructions

STAGE 1 • Insert the RCD adaptor into a 13 amp mains socket and switch on.
STAGE 2 • Press the RESET button. The RED indicator should appear.
STAGE 3 • Press the TEST button. The RED indicator will disappear from the CLEAR window.
    • DO NOT USE IF THE RED INDICATOR REMAINS.
STAGE 4 • Press the RESET button. The RCD has now been set for safe use provided the RED indicator shows in the CLEAR window.

Latching RCDs do trip during power cuts but they automatically reset once the power returns, so they are great for fridges, freezers Refrigeration,Frost watchers,Aquariums,Chargers

Technical Specification:

- Voltage Rating   : AC240V 50Hz
- Current Rating   : 13A
- Rated Tripping Current : 10mA
- Operating Speed   : <40mS
- Environmental Protection : IP2x
- Type Tested to   : BS 7071 - 1992

LED Rechargeable Floodlight Tripod

Description

- Light Source   : : 10W, 20W Epistar chip 90LM/W
- Input Voltage   : AC100-240V or DC 12/24V (10W&20W)

- Colour Temperature   : Daylight 6000K~6500K
- IP Rating   : IP65
- AC/DC adapter,12/24V car plug charger included

Features

- Die-cast aluminium finished with durable epoxy powder coating
- Anti glare high transparency clear tempered glass
- Adjustable height from 94cm to 180cm
- Detachable light pivots 360°
- Tripod collapses for easy storage
- Lamp grid protection

BRITZ®

100W LED UFO High Bay Light

Our rugged LED high-bay light features a 30,000-hour long lifespan, an IP65 protection, and the highest power efficiency (130 lm/w) high Lumen output energy saving. The product is ideal for general, task, and accent lighting, especially those with high-ceiling (5m and above). BRITZ LED strives to offer the best quality and cost performance LED lighting products available on the market

Description

- Input voltage : AC 100-277V-50/60Hz
- Power : 100W
- Light effect : 5%
- Lumens flux : 120-140 lm/W
- Light emitting diode : 13000lm
- Color temperature : 300pcs* SMD2835
- Color rendering index : 6000k/4000k/3000k
- Color tolerence adjustment : Ra>70
- Power factor : ≤ 10SDCM
- THD : ≥ 0.95: ≤ 15%
- Effciency : ≥ 88%
- Working temperature : -25°C- +40°C
- Service life : 30000H
- IK protection level : IK08
- IP Protection : IP65

Description

- No extra external AC-DC driver needed; Low-heat radiation, high-end solution for ceiling lights.
- Special circuit design can resist lightning strikes, and is safe to use during thunderstorms.
- LED light module has better performance in heat dissipation, which allows delivers longer life than other LED module.
- Super bright and low-power dissipation, at least 90% energy saving.

Features

- Energy Saving
- 360 Degrees Beam Angle High Brightness(100Lm/W)
- Extra Thick Magnet, Strong Absorption, Do Not Obstruct Wire
- Anti Flicker & True Colour
- Easy To Install, Wide Application

Model: EX-26

- Light source : 10w LED
- Nominal Efficacy : 500 Lumen
- Colour Temperature: 6500K
- IP Rating : IP44
- LED Chip : COB Super Bright Chip
- Input Voltage : SV 1A
- Battery Type : Lithium Battery (4000mA)
- Rechargeable Time : 6 hours Charging Time
- Run Time : 8 hours Working Time
- Light Output : High-Low-Strobe
- Charging : (Indicator Only Appears When Charging)

Model: BR-NL101
Automatic Darkness Sensor

- Power : 0.5WMAX
- Voltage : 220V- 240V
- Brightness : 3 Stage Dimmable
- Colour Temperature : 2700k Warm White
- Sensor : Dusk To Dawn Sensor
- Lumen : 10lm
- Dimensions : 51 x 45 x 80mm

0.5W | AUTO SENSOR | FIRE RETARDANT | IP20

3 PIN PLUG | 3 STAGE BRIGHTNESS

Model: BR-NL 102M
Automatic Motion Sensor

- Power : 0.5WMAX
- Voltage : 220V - 240V
- Brightness : 5 Stage Dimmable
- Mode : 3 Modes
- : (Auto, Constant On, Off)
- Colour Temperature : 2700k Warm White
- Sensor : Motion Sensor
- Sensor Delay Time : 60 Seconds
- Sensor Angle : 120° :20lm
- Lumen : 70 x 52 x 92mm
- Dimensions

0.5W | MOTION SENSOR | FIRE RETARDANT | IP20

3 PIN PLUG | 5 STAGE BRIGHTNESS | 3 LIGHT MODES

ON Constantly on

OFF Off the light directly

AUTO Auto on when motion is sensed and off after 60 seconds of inactivity

BRITZ®

24W & 30W LED T8 DOUBLE SIDED TUBE

The BRITZ LED T8 Double-Sided Tube offers powerful illumination with energy efficiency. Available in 24W and 30W, these tubes provide high lumens for brilliant, evenly distributed light. Featuring modern LED technology, they are both energy-saving and environmentally friendly, contributing to long-term cost savings and sustainability. With 2 NEA-approved energy label ticks, these tubes adhere to stringent energy performance standards. Easy to install and compatible with existing T8 fixtures, they are a versatile choice for upgrading lighting systems in offices, retail spaces, and homes—delivering high-performance lighting, energy savings, and environmental responsibility.

Description

- Input Voltage : AC 180-265V 50/60Hz
- Power : 24W & 30W
- Light Effect : 115 lm/W
- Lumens Flux 24W : 2760 Lm
- Lumens Flux 30W : 3450Lm
- Energy Efficiency : 2 Energy Label Tick
- Colour Temperature : 6500k
- Colour Rendering Index : Ra>80
- Efficiency : 50000Hrs
- Dimmable : No
- Diameter : 28mm
- Length : 1200mm
- Direct Replace T8 Fluorescent : Yes

Permaplug 2 Gang 13A

Permaplug 4 Gang 13A

MASTERPLUG

Model: CMU10134SL

Description

- Easy wind handle and rear grip
- Ergonomically designed
- Integrated power switch with LED light, Thermal Cut Out
- Connected Equipment Warranty
- 13A Fused
- Switch + LED

Model: HMU15134SL

Description

- The four-socket extension lead has an integrated power switch with LED indicator, allowing more control over devices.
- It also has a thermal cut out which activates due to temperature rises caused by a power surge or overload, giving you peace of mind by minimising the risk of an electrical fire.
- Fixing points in the base allow the cable reel to be mounted for storage or while in use, for further versatility.

Specification

- 4x 13A UK shutter sockets with UK plug
- 240 V
- Power on/off switch
- Power LED indicator
- Safety Thermal Cutoff
- 15m extension lead
- Easy wind handle
- Standards: BS EN 61242. ASTA Approved
- Maximum Load: 720W/240V -Fully Wound 3120W/240V - Fully Unwound

MASTERPLUG

MASTERPLUG SAFETY IN-LINE RCD (ELCB)

Description

Non-latching inline RCD adapter provides added protection against electrocution. The double pole switching both live and neutral when contacts trip. This inline RCD plug will continuously monitor the power supply to an electrical appliance and will cut the power within 40 milliseconds if an earth current fault is detected. The adapter has a current rating of 13A and voltage rating of 240V ac. It has IP65 rating protection for added safety.
